

Claims-Based Activation Paths in Action

Activating benefits through custom claims indicators

This is Matthew.

Matthew is a 51 year old male. His company provides benefits enrollment and engagement through Benefitsolver®. Matthew's health hasn't been a top priority, so he is seeking care because lately he has not been feeling well.

MultiPlan provides ownership, visibility and control through:

- Secure and elastic data warehouse
- Cloud-based portal
- Secure encrypted environment
- Systematic continuous in-depth data analysis

Matthew Goes to the Doctor

A Claim is Filed
