

Individual Coverage HRA Solutions

Businessolver® is built to provide a simple and enjoyable ICHRA experience for employees

Introduced in 2019, the Individual Coverage Health Reimbursement Arrangement (ICHRA) is a substantial and flexible benefit option for employers. Our MyChoice® Accounts can handle it from start to finish.

Why MyChoice® Accounts?

We built a platform that solves for hundreds of configurable plan designs, including ICHRA—ensuring administration of these important accounts is seamless. All so your employees have the access they need to spend AND save for their healthcare needs.

Putting ICHRAs to work

ICHRAs are employer-funded accounts that employers can offer to small groups or even subsets of employees. Members can use the ICHRA to make their own decisions about health care options. The account can reimburse employees taxfree for individual health insurance premiums and other medical expenses. It can be offered as a stand-alone benefit or as another option in a business's health benefits program, alongside group health insurance. The ICHRA provides the purchasing power for an individual plan.
