

Provider Lookup

Delivering Transparency and Peace of Mind

Brand loyalty comes first for many purchases in our lives. So it's no surprise that the same need for loyalty can also be said about your doctor. Employees want to know that the benefits they are enrolling in, allow them to continue to see the providers they trust. Our Provider Lookup tool in Benefitsolver® provides employees peace-of-mind during the enrollment process, knowing that their coverage will continue to provide them access to what they know. With the added benefit, of saving money for both the employer and the employees by using in-network providers.

The screenshot shows the Benefitsolver website interface. At the top, the logo 'benefitsolver' is visible along with navigation links for Home, Message Center, Live Chat, Help, Reference Center, and Sofia Solver. The main heading is 'Find A Provider'. Below this, there are search filters: 'Custom Zipcode: 64030 Change' and '50 miles'. A search bar contains the name 'Johnson'. The results section shows '115 Results'. The first result is for 'Jennifer P. Johnson', with a magnifying glass icon over her name. Her details include 'Location 1', '1724 Main St', 'Belton, MO 64030', 'Ophthalmology', '0.74 Miles Away', 'Plans Accepted: Medical HDHP', and a green checkmark indicating 'Current Plan Accepted'. There is a button to 'Add As Preferred Provider'. The second result is for 'Curtis Delon Johnson', with details including 'Location 1', '17065 S Outer Rd', 'Belton, MO 64012', 'Pain Management, Anesthesiology', and '4.81 Miles Away'.

Easy Search

Employees can search hundreds of providers including family medicine, specialists and medical centers within 100 miles of any given zip code.

Save Preferred Providers

Saving preferred providers is easy for members so they can reference them later, keep the list updated and identify which providers are in-network for their medical plan options.

Transparency

Members can easily identify which plans will accept their list of preferred providers, giving them peace of mind that their family's health needs will be taken care of.

One System

By including provider lookup in the enrollment flow, members can see how many of their preferred providers are in-network for each medical plan without having to leave their benefits enrollment. Helping them get into the right benefits, at the right time.
