

Customized Videos

Odds are, more than half your current workforce are visual learners – they understand difficult concepts and complicated terminology when it is provided to them in a compelling, visual format. That’s why we have partnered with GuideSpark. They have mastered the art of creating educational and effective video tools that seamlessly integrate within Benefitsolver. GuideSpark isn’t limited to just providing a textbook answer to what a certain medical plan is – it also helps employees make the best benefit elections for their situation and informs them how to use their benefits successfully. Let us help communicate your benefit administration strategy and effectively communicate the process to your organization.

- **Just in time** – Content that provides valuable information at a time employees need it
- **Custom** – Works directly with its clients to develop custom content that addresses their specific needs & meets the culture/style of client brands
